PART 4

THE SEAT WILL NEED TO BE CUSTOM BENT
TO FIT THE FRAME
THIS CAN BE DONE USING ANY PROCESS
AVAILABLE.
START WITH A RECTANGLE THAT IS 16"
WIDE AND AT LEAST 15" LONG. (THE
LENGTH CAN BE TRIMMED LATER.)
THE FRONT AND BACK OF THE SEAT
SHOULD LAND IN THE MIDDLE OF THE 1"
TUBING CROSS MEMBERS.

Note A: Applied to both ends of angle support

Note B: Grind outside corner flat to match the tubing angles

Note C: Cap or cover ends as you see fit. You may use alternate materials for this feature only.
